## Solons Talk Of Sending GIs Into Indochina War

### Wiretapping Bill Backers Facing Defeat

Substitute Measure Expected For Brownell 'Police State' Plan

WASHINGTON (AP)—Republican House leaders waged what looked like a losing battle today to save the administration version of a bill to legalize use of evidence obtained by wiretapping in cases involving national security.

As the House entered the second day of furious debate on the measure, some GOP quarters privately conceded defeat on a showdown vote later in the day over giving the attorney general authority to order wires tapped in national security cases.

Most Democrats and some Republicans favor a proposal that would require a court order before wiretapping could be carried out.

However, passage of some form of wiretapping legislation appeared assured. The only important dispute centered on the form it should take. Both versions under consideration would restrict wiretapping to espionage, treason and sedition conspiracy cases.

The administration-backed version would give the attorney general authority to order wiretapping by FBI and military intelligence agents in specified cases.

A SUBSTITUTE proposal, authored by Rep. Willis (D-La.), would require the attorney general to get (Continued on Page Two)

### Cleveland Police Expert Asks Radio Direction Setup

CLEVELAND (AP)—"Motorists, please detour around W. 25th street and Clark avenue. The intersection is jammed because of a traffic accident."

Messages like this would be radioed to motorists traveling in and out of Cleveland if Thomas E. Story, read of the police radio division has his way.

Story outlined the plan yesterday to traffic engineers and civil defense authorities who dubbed it a "natural" for use during air raid and disaster alerts.

Mechanically, the setup would consist of radio wires strung along main highways, civil defense arteries, bridges and heavily traveled streets. A transmitter would be maintained at central police station, with portable transmitters available for emergencies.

Standard auto radios would be capable of picking up the broadcasts, and signs along streets would instruct drivers to turn to a designated frequency to get traffic information.

### Verdict Upheld

WASHINGTON (AP)—The U. S. Court of Appeals today affirmed the perjury conviction of E. Merl Young, a key figure in the Senate's investigation of Reconstruction Finance Corp. operations.

### Teachers Urged To Confess They'd Like To Bash Heads

OKLAHOMA CITY (AP)—How can teachers make sure their mischievous charges won't drive them insane?

Dr. Percy Teska, professor of special psychology at the University of Oklahoma, listed three simple rules in an address before the senior high school section of the Oklahoma Education Assn.:

1. Admit to yourself you would like to hit the little demon in the back row with a baseball bat.

2. Don't try to act the role of a superhero, with 100 times as much patience as the average human being and 1,000 times as much understanding.

3. Don't feel guilty about disciplining students.

By recognizing that you "really hate" that little terror in the back row, Teska said, you will be less inclined to bash his head in.

He said only one in every dozen children that are brought to the University of Oklahoma's psy-

### People Cured Of TB Tagged To Live Longer Than Usual

CHICAGO (AP)—Having tuberculosis and being cured of it may actually mean a longer life for a person than he would have had if he never suffered TB.

Dr. Harry E. Ungerleider of New York said this is one of the indications from one of the most detailed insurance studies ever made of life expectancy among people having physical "impairments" ranging from heart disease down to ulcers.

The physician, of the Equitable Life Assurance Society of the United States, told the American College of Physicians that the recent analysis involved studies of the records of 725,000 insured individuals and 18,000 deaths in some 132 "impairment" classifications.

He said the findings are based on the experience of 27 insurance companies.

Concerning tuberculosis, the doc-

tor said the survey showed that if a person survives five years after his TB has been "arrested," the possibility of death is no greater than it would be for the average of people of the same age.

"And 10 years after arrest, mortality becomes appreciably less than average," he said. "It appears that the discipline accompanying cure of his disease pays dividends to the tuberculosis individual in training him to safeguard his health in the future."

Regarding diseases of the heart, he said, the study gave additional grounds for "a much more optimistic outlook" on life expectancy among people with disease of the coronary arteries, one of the major forms of heart ailment.

He said persons who survive without complications a heart attack caused by blocking of a coro-

nary artery have a good chance of getting life insurance, and he added: "This is a concrete indication of our insurance companies' changing attitude towards coronary disease."

But he declared the findings regarding mortality rates among people who have serious heart "murmurs" justify the present "conservative attitude towards insurability" of such people.

Among other findings: Acute rheumatic fever: life expectancy "far better" than had been supposed a few years ago.

Migraine headache: normal life expectancy and, in some categories, even better than normal.

Chronic bronchitis: attended by death rates 50 to 80 per cent above normal.

Stomach ulcers: in the absence of any hemorrhage, mortality rates just about the same as normal.

### Use Of Naval, Air Units Said To Be Possible

Senators Grow Sober After Hearing Ike Say Reds Must Not Gain

WASHINGTON (AP)—Two senators today spoke of the sending of U. S. naval and air units into the Indochinese fighting as a possibility and one said, "It looks to me as if we are on the edge of war there."

Sen. McCarran (D-Nev.), who made this estimate in an interview, said, "If we should send in naval and air forces now, it would only bring the Chinese Communists in force and then I don't see how we could avoid sending troops."

The sober comment in Congress followed renewed expressions by President Eisenhower and Secretary of State Dulles of the administration's determination that Indochina must not fall to the Communists, and indications from abroad that U. S. allies are not moving as fast as U. S. officials might wish in forming a coalition on defense of Southeast Asia.

Dispatches from London and Paris indicated both British and French leaders might consider the time inopportune and want more details on the "united action" Dulles has advocated.

ALL SIDES seem to agree that if and when conclusive decisions are reached and some public statement is made, it must be not simply another "hands off" warning to the Chinese Reds but an announcement of determination with real teeth. The question at this point is what kind of teeth. Should the policy decisions be backed up by naval forces, air forces, ground forces, or some combination of these?

Eisenhower's refusal at his news conference yesterday to spell out probable free world action if the Chinese Communists move in force into Indochina caused some senators to speculate that a program of counteraction is in the making.

Among these, Sen. H. Alexander Smith (R-N.J.) said he sees no need to use U. S. troops in Indochina, but he added:

"In case of a crisis there, we may need to use naval power and undoubtedly air power. I don't think anything we are doing now contemplates employing American manpower in Asia but quite conceivably it calls for air and naval power."

Smith, who is chairman of a Senate Foreign Relations Far Eastern (Continued on Page Two)

### Balmy Spring Is Chilled By Cold Air Mass

CHICAGO (AP)—Cold Canadian air surging southeastward put a chill on the balmy spring weather in most of the Midwest today.

The mass of cold air covered the north central section and extended southward into Texas. It continued to move south and eastward. The edge of the cold front early today extended from northeastern Ohio southwestward along the Ohio River and into eastern Texas.

Temperatures generally were below freezing early today in the northern plains and northern Great Lakes region and extended southward into parts of Nebraska, Iowa and Wisconsin. Snow flurries fell in the northern Great Lakes.

The storm center that moved eastward across Lake Superior yesterday was blamed for at least five tornadoes in Illinois, Wisconsin and Michigan, mostly in rural areas. The storm system pulled cool and dry Canadian air southward into contact with warm and moist air from the Gulf.

One woman was killed and 12 persons injured in a twister that struck near Kankakee, in northeastern Illinois. Several persons also were injured in a small tornado that hit near Flint, Mich.

The twisters destroyed scores of farm buildings, killed livestock and disrupted communications.

### Plane Explodes

TOKYO (AP)—An American Superforter plane exploded and crashed today while refueling a jet fighter in the air and five crewmen are believed to have died.

### District's Girl Scouts To Lead 1954 Lily Parade Next Saturday

Aimed at new high figures in view of last year's praise from state campaign leaders, the 1954 Lily Parade—climax of the Easter Seal drive—will all set to go next Saturday.

The traditional one-day, all-out effort in behalf of crippled children will extend to all sections of the county, with special preparations being made in Circleville and some of the other district communities. Response in Ashville last year was so enthusiastic, local leaders recall, that an extra supply of the small lily lapel emblems had to be rushed here from Columbus.

Meanwhile, the Easter Seal drive itself is already in progress and will continue for a time after the Lily Parade high mark.

Pickaway County Girl Scout troops will lead the Lily Parade, actually a sidewalk sale of the tiny paper lily symbols in return for whatever donation a person may wish to give—large or small. The "parade" will open at 9 a. m. and continue until evening.

SIMILAR EFFORTS for the Easter Seal drive will be made the same day all over the United States.

Mrs. Richard Jones, supervisor

### U. N Council Studies Arab, Israeli Feud

UNITED NATIONS, N. Y. (AP)—The U. N. Security Council turned today to a debate that may lead to a general review of Israeli-Arab border raids in Palestine.

The council agenda listed rival Lebanese and Israeli complaints but Western members hoped to lump them together as one item.

Council president for this month is Andrei Y. Vishinsky of the Soviet Union, who twice has vetoed Western-backed Palestine resolutions that the Arabs disliked.

Two ambassadors to the United States, Abdul Monem Rifai from Jordan and Abba Eban from Israel, are representing the two countries most concerned in the debate. Neither is on the council and Jordan is not in the U. N.

Lebanon acted on Jordan's behalf in filing her complaint against Israel a week ago. Four days later Egypt, Iraq, Saudi Arabia, Syria and Yemen joined in it.

It charges that "military trained Israelis" attacked Nahalin Village in Jordan the night of March 28, blew up the mosque, killed nine Arabs and wounded 19 others.

Israel in turn lodged four complaints against Jordan Monday. She charged four violations of a 1949 Israel-Jordan armistice agreement including an armed attack fatal to 11 Israeli bus passengers March 17 in Israel's Negev Desert.

### Bus Kills Pupil

CLEVELAND (AP)—A school bus ran over and killed a first grade pupil in suburban North Olmsted yesterday afternoon. The driver said Timothy Frawley, 7, got off the bus and ran in front in crossing the street to his home.

### Pair Of Lima Jailbreakers Elude Police

TAMPA, Fla. (AP)—Two Lima, Ohio jailbreakers were still at large here today eluding a coordinated manhunt and terrorizing a large area north of Tampa.

A 44-year-old man was abducted and held captive for more than two hours by one of the fugitives who forced him to drive his car, then stole it.

Earlier, the escapees had pistol-whipped a third escapee, then held up a meat company driver before fleeing on foot in the Sulphur Springs section here.

The two wanted men, according to Chief Criminal Dep. Ross Anderson, are Richard E. Rubart, 23, and John Rankin, 22. Both are armed, Anderson said.

Rankin was wounded in the leg during the affray with a third gang member, James A. Moore, 53, of LaFollette, Tenn. Moore, who is in police custody, was found bleeding profusely outside a Tampa motel early Tuesday, after his wallet with \$180 had been stolen, he said, by his two companions.

At first he maintained silence but later told sheriff's deputies he and the other two men had broken out of the county jail in Lima.

He related to Deps. Bill Donaldson and J. J. Mitchell the story of a well-planned, but derailed, break from jail where the two were awaiting trial in separate cases.

Sunday, March 28, the three men used a key, fashioned out of a spoon, to unlock an air shaft and succeeded in crawling to an adjoining empty cell.

They were then able to walk down a corridor and out the front door of the jail without being detected.

A motor car was waiting a half-block from the jail by prearrangement and they left for Florida.

### Ike Introduces 'Liberty Stamp'

WASHINGTON (AP)—President Eisenhower today took part in a telecast from the Postoffice Department to introduce America's "Liberty stamp."

Printed in red, white and blue, the stamp is in the eight-cent denomination, the standard letter rate for overseas mail.

Centered by the Statue of Liberty it is designed to present the theme of American life to lands abroad.

Postmaster General Summerfield calls it "our postal ambassador."

It is the first U. S. stamp to carry the motto "In God We Trust."

### Estill Conley Gets Fine In Cop Case

One of two brothers accused of beating a city policeman last December was found guilty on one of two counts against him by a Common Pleas jury here late Wednesday. He was later ordered to pay a fine of \$100.

Estill Conley was found guilty of obstructing an officer, one of several charges which grew out of a fight in which he and his brother, French, had with Officer John Lockard. The three struggled on Route 22 near Williamsport after Lockard in a cruiser had chased the Conleys from Circleville. In the fight, Lockard's gun was taken from him.

The jury took 45 minutes to find Estill guilty of obstructing an officer. French had pleaded guilty to the same charge previously and had been fined \$25 by former Mayor Ed Amey. Estill was found innocent of unarmed robbery of Lockard's gun.

Lockard was found innocent on two accusations, unarmed robbery, and assault and battery of Mildred Smith. She was a passenger in the Conley car during the chase.

ESTILL WAS fined \$500 and sentenced to 30 days in jail by Judge William Radcliff Thursday morning. However, the judge suspended \$400 of the fine and all of the jail term. The court gave Estill 90 days to raise the money for the fine and placed him on six months probation. The court pointed out there may also be a question of parole violation involved.

Both Conley brothers have pre-

### Truck Driver Gets Lausche Tied To Tiff

COLUMBUS (AP)—An Illinois truck driver who said he was having trouble unloading his truck here yesterday set off an imbroglio involving the governor of Ohio, the AFL Teamsters Union and the State Highway Patrol.

Gov. Frank J. Lausche said the incident looked like a racket to him. The union called it a "misunderstanding."

Driver Joe Carrero of the Arbet Truck Line of Harvey, Ill., phoned Lausche and told him he was trying to unload 32,000 pounds of medical supplies.

Carrero said he was told he would have to have a union man help him unload it. Lausche dispatched a highway patrolman to the scene but just what happened then is not yet known.

Carrero complained about having to pay a full day's wages—\$15.80—for three hours' work by the union man. Don F. Pfeiffer, secretary of the Ohio Conference of teamsters, called the matter a "misunderstanding."

Carrero asked help of his own free will in unloading his goods, Pfeiffer said. Charging a full day's pay is "strictly contractual procedure. We have an eight hour minimum fee," he said.

Concerning payment, he continued, Carrero called the union to ask if he could make out his personal check to its office. A secretary told him the union did not accept personal checks from out-of-state truckers because they sometimes bounce, Pfeiffer said.

### Fare Slash Set

CLEVELAND (AP)—The Chesapeake and Ohio Railway said today for a trial period from next Thursday until July 31 it would cut round trip coach fares on the run between Covington and Norfolk, Va., by 25 per cent.

### Capitol Hill Highlights

By The Associated Press

Members of Congress show deepening concern over possible involvement of U. S. fighting forces in Indochina War.

Sens. McCarran (D-Nev.) and H. Alexander Smith (R-N.J.) speak of the possibility that American naval and air units may enter the struggle now being waged by French Union forces against the communist-led Vietminh.

Says McCarran: "It looks to me as if we are on the edge of war there."

WIRETAPPING—The House is locked in a fight over whether the attorney general should be given unrestricted authority to order wires tapped to gather evidence in cases involving national security.

This is what the Eisenhower administration wants, but most Democrats and some Republican back a proposal to require the attorney general to get a court order first.

The administration plan seems headed for defeat, but passage of some form of wiretap legislation seems certain. Wiretap evidence is not now admissible in federal courts.

TAXES—Two Senate opponents of further income tax cuts give a chilly reception to a proposal by Sen. Frear (D-Del.) to impose a \$5 or \$10 annual "head tax" on all persons who would be relieved of federal income tax obligations under a Democratic proposal to boost personal income tax exemptions.

Sens. Byrd (D-Va.) and Carlson (R-Kan.) say they still are opposed to any more income tax slashes because of the substantial net loss of revenue that would result. They (Continued on Page Two)

### 'Head Tax' Proposal Hit By 2 Solons

WASHINGTON (AP)—Two Senate opponents of a further big cut in income taxes said today their stand would not be altered by a substitute "head tax" proposal.

Senators Byrd (D-Va.) and Carlson (R-Kan.) said they remained against the proposed income tax reduction because of the substantial net loss of revenue involved.

The substitute came to light yesterday after top Treasury officials said the income tax cut could mean dropping 25 million taxpayers from the rolls.

Sen. Frear (D-Del.), one of the sponsors of the slash in income levies, said he proposed to keep all such persons on the rolls by making them liable for a \$5 or \$10 annual "head tax."

This would continue to make them conscious of their responsibilities as citizens, he said.

However, Byrd commented this appeared to him to be designed to "sugar coat" the income tax reduction. He said he doubted whether it would be feasible. He noted that a \$10 tax on 25 million persons would bring in \$250 million, just a small part of the revenue loss from the income tax cut.

The income tax play, co-sponsored by Frear and Senators George (D-Ga.) and Kerr (D-Okla.), would raise exemptions by \$200 this year, a \$4½ billion tax cut, and to \$400 in 1955 and thereafter, a \$7.8 billion annual slash.

### Columbus Concern To Add Elevator

Eshelman Grain Inc., Sullivant Ave., Columbus, has announced the firm is building an addition to its grain elevator and feed manufacturing plant.

Added to the plant, built in 1951, will be a 500,000-bushel grain elevator. Plans are to have the elevator completed in time to store a substantial amount of the 1953 wheat crop.

The firm, which employs a number of Pickaway County residents, reports increased business.

### Road Aid Sought

WASHINGTON (AP)—Sen. Ferguson (R-Mich.) said today he will soon sponsor a multi-billion dollar program of federal aid to cities for construction of highways to speed evacuation in case of enemy attack.

# Use Of Naval, Air Units Said To Be Possible

(Continued from Page One)

subcommittee, applauded Eisenhower's call for concerted action by the nations of the free world to prevent an anti-Communist defeat in Indochina and resultant falling-domino collapse of Burma, Thailand, Indonesia and other Southeast Asia nations now outside the Red orbit.

ALMOST WITHOUT exception senators who commented agreed with the President's view that the loss of Indochina would harm the U. S. island defensive chain of Japan, Formosa and the Philippines and also threaten Australia and New Zealand.

Sen. Mansfield (D-Mont.), a Foreign Relations Committee member, said he had heard reports that the administration intends to take limited action—beyond the present program of furnishing military supplies to the French Union forces—but added, "In my opinion there is no such thing as limited action."

"Does Secretary of State Dulles statement that the Chinese Communists have almost come to the point where we would take massive retaliation against them mean 'almost' for us too?"

Sen. Dirksen (R-Ill.), who may be dispatched with Sen. Magnuson (D-Wash.) by the Senate Appropriations Committee for a spot check on conditions in Indochina, has proposed that the French give the Indochinese states, Laos, Cambodia and Viet Nam, a "target date for freedom," and has said the United States ought to crowd the French toward such an action.

# Traffic Violations Bring Four Fines

Four traffic violators were fined in Municipal Court Wednesday by Judge Sterling Lamb. They include:

Harry C. Dinsmore Jr., 34, of Portsmouth; \$25 and costs for reckless operation; arrested by Sgt. Rod List.

Butler Hall Jr., 25, of Amba, Ky.; \$15 and costs for speeding at 65; arrested by State Patrolman Gene Miller.

James L. West, Lockbourne Air Base; \$10 and costs for crossing over center line; arrested by Deputy Sheriff Carl White.

Ralph J. Dresbach, 38, of Kingsport; \$15 and costs for failure to keep proper distance from another vehicle. The accusation grew out of an accident on March 25. State Patrolman Ray Hoylman had made the original arrest.

## GRAIN FUTURES

CHICAGO (AP) — Practically all grains as well as basic fats and oils contracts moved persistently into higher ground on the Board of Trade today.

Wheat, soybeans and lard were especially firm.

Wheat near noon was 1 1/2-2 1/2 cents higher, May \$2.18 1/4; corn was up 1/4-1/2, May \$1.49 1/4; oats were 1/4 to one cent higher, May 75 1/2; and rye was 2 to 2 1/4 better, May \$1.07 1/4. Soybeans were 2 1/2-5 1/2 cents higher, May \$3.65 1/4, and lard was 25 cents a hundredweight higher to 8 cents lower, May \$19.90.

# Canadian Planes Collide; 30 Killed

MOOSE JAW, Sask. (AP)—Two planes crashed in the air over the northeast section of this industrial town today and nearly 30 persons were reported killed.

One of the planes was a Trans-Canada Airlines North Star, a four-engine craft capable of carrying 48 passengers. The plane is the equivalent of the DC6.

The other was a single-engine Harvard trainer from a Royal Canadian Air Force flying school ordered down and disintegrated when they hit the earth.

# Mamie Is Tagged 'Best-Chapeaued'

NEW YORK (AP)—Mamie Eisenhower tops the list of America's "best-chapeaued" women named yesterday by 10 noted millinery designers.

Mrs. Eisenhower was selected by Sally Victor, who said: "She has done more for the American hat business than any First Lady since Dolly Madison."

# Wiretapping Bill Backers Facing Defeat

(Continued from Page One)

a court order in advance of any official eavesdropping.

Brownell has opposed inclusion of the court order requirement as a "time-consuming handicap."

Foes of unchecked wiretapping powers denounced the administration bill as "the first step toward making this country a police state," and an invitation to political chicanery.

Rep. Dodd (D-Conn.) declared that "it reposes in one man a police power that the people of the United States have repeatedly refused to grant."

Rep. Keating (R-NY), author of the administration bill, told the House a provision in the bill permitting use of old wiretap information "may very well permit the conviction" of former government girl Judith Coplon and others against whom the government has not been able to use such evidence.

# Estill Conley Gets Fine In Cop Case

(Continued from Page One)

ley car. Three bullets hit the car but missed the occupants.

When the Conleys finally stopped, Lockard approached and holstered his gun. County Prosecutor William Ammer claimed the brothers set upon the officer, threw him to the ground and ripped his gun out of his holster.

The defense admitted the taking of the gun but contended the Conleys did it only to prevent Lockard from doing any further shooting.

AMMER CONTENDED the Conleys meant to do Lockard further harm. He pointed out that the officer was doing his duty of protecting lives.

Although the brothers were tried for separate offenses, they asked to be tried together. Joe Adkins represented Estill and former county prosecutor Guy Cline defended French.

The jury had nine possible verdicts to consider.

# Honor Society Sets Initiations For 47

The Pickaway Honor Society will initiate 47 high school pupils from throughout the county Friday evening at special ceremonies in Deer Creek High School. In addition, officers of the society for the year 1954-55 will be chosen by the new members.

A dinner at 6:30 p. m. will begin the affair. Next will be the election of officers who have been nominated by the general committee of the society, chairman of which is County School Superintendent George McDowell.

The initiation will take place in the high school's auditorium with the public invited. Closing festivities will be musical. Mrs. Ida Ware of Deer Creek will be in charge of the orchestra, made up entirely of Honor Society students.

# Glouster Blaze Probe Continues

COLUMBUS (AP)—Investigation of a fire that took six lives in Glouster Saturday will be completed in a "couple of days," the state fire marshal's office said today.

Willis S. Peterson, chief of the fire marshal's arson bureau, said there are "extenuating circumstances" involved but would not disclose what they might be.

Fire victims were Mrs. Garnet Richards and five of her six children, aged 10 months to six years.

# Drive To Encourage U.S. Fight On Reds In UN Stirs District

Community leaders expressed surprise here Thursday at the steady flow of signatures to protest any move to admit the Chinese Reds into the United Nations.

One city official remarked: "It's strange in a way that folks can get worked up so quickly about something like this, and at the same time remain indifferent to matters in their own community. But on the other hand, maybe it isn't strange at all when you stop and think."

"It just goes to prove that the plain people, in Pickaway County and everywhere else, are always watching for any new move by the Communists to crowd closer around our way of living, that is, try to chisel us a little more. I guess we all realize that if Communism is allowed to have its way in the world, the things that seem so important now in our own district just won't matter at all."

THE HERALD has urged its readers to sign either petitions at the newspaper's office or coupons clipped from the daily issues. The signed petitions and coupons, will then be relayed to Ohio's two U. S. senators in Washington so they will

# Three Resign Positions As City Teachers

City Schools Superintendent George Hartman announced Thursday that three resignations among the city's teaching personnel have been accepted by Circleville Board of Education.

Resignations were those of the following: Mrs. Joan Thompson, teacher of kindergarten at Walnut Elementary School; Miss Bernice Purdon, ninth grade English and public speaking teacher, and Carl Smith, industrial arts instructor at Circleville High School this year.

Smith is moving to Newark to reside with his wife and daughter. He hopes to be teaching next year in that locality.

MRS. THOMPSON, a teacher in Circleville city schools for the past two years, plans to move to Columbus where her husband will have a new business assignment.

Miss Purdon is moving to Butler, Pa., following her marriage in August and plans to continue her teaching there. In addition to her teaching duties, Miss Purdon directed both the Junior and Senior class plays.

"Circleville teachers and administrators have been so considerate and helpful," said Miss Purdon, "that I regret leaving after only one year."

"This has been an enjoyable and worthwhile experience."

The father, Lawrence, 29, and the sixth child, Charles, 2 escaped.

# Carpet for Hall Runners . . . . . Stairs, Big Throw Rugs

Regular \$7.95, \$8.95, \$10.95, \$12.95 and \$15.95

One of the largest mills made us an offer on all the ends of 27 inch runners in their warehouse at a ridiculous price . . . we bought it . . . and pass the saving on to you.

There are hundreds of patterns and sizes in the group and you can buy them at a fraction of the wholesale price on fine carpet. There isn't a carpet in the group which sold under \$7.95 a yard.

The sizes are whatever was left on the roll and run from 4 foot to as much as 20 feet.

We are selling them at \$2.89 a running yard by the piece, or if you want just a part of one it will be \$3.89 a running yard, which is still way below wholesale.

You who need runners, big throw rugs, stair carpet shouldn't miss this chance to save. Many of the runners match another piece, so in some cases you may be able to get enough of a pattern to do a big stairs.

We have the equipment to finish any piece to your specification.

# Senator Burke To Speak Here At Jefferson Day Rally April 24

U. S. Senator Thomas A. Burke of Ohio will be the main speaker for the Jefferson Day Dinner planned here April 24 under sponsorship of the Pickaway County Democratic Women's Club.

The dinner, expected to draw a large attendance from all over this section of the state, is scheduled for 6 p. m. in the EUB Service Center. It will be the first major local event to help turn the attention of district voters toward the November election.

Congressman James G. Polk of the 6th Ohio District will attend, along with state and local candidates and groups from Chillicothe, Washington C. H. and Lancaster. Reservations must be made in advance. The following committees will serve:

ARRANGEMENTS: Mrs. Mary E. Beaver, Mrs. Eli Hedges, Mrs. Ross Phillips, Mrs. Olan Bostwick, Gordon Perrill, Mrs. Mary Fullen, Ed Wallace, Guy Cline, Ray Cook.

Decorations: Mr. and Mrs. John Himrod, Boyd Horn, Mrs. Rose Stephens, Mrs. V. T. Watson, Margaret Dean, Mrs. Ira Hoover, Margaret Justice, Mrs. Virginia Strawser, Mrs. Anna Ritt, Mrs. Carl Purcell, Virgil May.

Tickets: Mrs. Rose Rader, Charles H. Radcliff, Rose Good, Dorothy Adkins, Mrs. Warren Baker, Ira Hoover, Mrs. Mary Fullen, Dr. Montgomery, Mrs. Allen Trego, Fred Betts, Leona Riegel, Miss Benadine Yates, David Dunnick, Mrs. Robert Young.

Music: Mr. and Mrs. Karl Herrmann.

Reception: Ed Wallace, John Robinson, Mr. and Mrs. Thurman.

# St. Marys Lake To Get New Pier

COLUMBUS (AP)—The Ohio Wildlife Division said today an 800-foot fishing pier has been approved for Lake St. Marys.

The 12-foot-wide pier will serve also as a breakwater to reduce wave action prevalent on the lake. It will extend from Windy Point toward Safety Island.

The council also has approved an 885-foot long bank fishing area for East Harbor, in Ottawa County, considered one of the best large-mouth bass fishing areas in the state. Bank fishing at East Harbor has been limited by heavy aquatic vegetation.

# Pope Gets Flowers

VATICAN CITY (AP)—A big bouquet of white carnations are delivered once a week at the Vatican's bronze door for convalescing Pope Pius XII. They are brought by a carriage driver who would only say: "They are from an American lady."

## District's ASC Office Notifies Wheat Farmers

Wheat farmers are now authorized to use a part of their wheat acreage for green manure, cover crop, hay, pasture or silage. This announcement was issued Thursday by Mrs. Margaret D. Downs, office manager of the local ASC office.

This means that farmers who have planted too much wheat can still avoid marketing quota penalties or loss of price support eligibility, or both, by plowing under a part of their seeded wheat acreage for green manure, by pasturing it off, or by cutting it for hay or silage, provided this utilization takes place while the wheat is still green, and provided such action is completed prior to June 10, 1954.

"Any farmer", continued Mrs. Downs, "who desires to take advantage of this provision should immediately call at the county office and indicate the acreage which he desires to use for these purposes. Any seeded acreage of wheat properly used for any of these authorized purposes will not be classified as wheat and, therefore, will not count against the allotment."

Under current regulations, marketing quota penalties are imposed on all farms where the acreage classified as wheat is in excess of the allotment, provided such acreage is above 15 acres. There are no marketing quota penalties where the acreage of wheat is 15 acres or less.

Price support, on the other hand, cannot be obtained for the wheat on any farm on which the acreage of wheat is in excess of the allotment for the farm.

## Ohio Solon's Farm Poll OKs Old Age Plan

WASHINGTON (AP)—Rep. Secrest (D-Ohio) has stated 89 per cent of farmers polled in his district favored coming under the Social Security program.

Secrest gave results of the poll in testimony prepared for the House Ways and Means Committee. He strongly supported President Eisenhower's proposal to expand Social Security coverage, benefits and taxes.

He said if farmers are brought under the system along with businessmen and wage earners, as proposed by Eisenhower, then all three groups will have a vital interest in the law.

"And you will set up the greatest possible guarantee that no future Congress will ever dare to dissipate the fund upon which the future plans of so many people have been made," he said.

Secrest said 3,266 farmers had replied to his poll and the results showed almost 9 out of 10 wanted to come under Social Security.

Some committee members have questioned whether doctors, lawyers, farmers and others who would be brought under Social Security by the Eisenhower program actually want to be covered.

The American Medical Assn. said recently that doctors want to set up their individual retirement plans and oppose Social Security coverage for them as a step toward "regimentation."

But several committee members questioned whether the AMA could speak for most doctors. They said many rank and file doctors want coverage.

## Kansas Orator Wins Legion Test

LOS ANGELES (AP)—High school student Jack E. McNeas of Kansas City, Kan., is the winner of the American Legion Oratorical Contest finals, and a \$4,000 college scholarship.

McNeas, a sophomore at Shawnee Mission High School, won out yesterday, giving prepared and extemporaneous speeches.

Milton H. Copeland, Wichita Falls, Tex., won second place and \$2,500 for higher education, and George J. Clements, Penn Yan, N.Y., won third and a \$1,500 scholarship.

## Florida Baptists Erase Color Line

DAYTONA BEACH, Fla. (AP)—Negro youths will be invited to attend a Baptist boys' meeting in Tampa this October, the Florida Baptist Women's Missionary Union decided yesterday.

It approved a resolution that the 1954 meeting of its Young Men's Conference be interracial.

Armand Ball of Jacksonville, secretary of the boys' division of the Florida WMU, said delegates will eat, sleep, work and play together at the meeting, which will run two days.

## Derby

The Cheerio Class meets at the home of Mrs. Harry Matthes Wednesday evening. Covered dish lunch.

A joint W.C.T.U. institute will be held in school building at Derby on Tuesday. Covered dish lunch at noon. Derby, Commercial Point, and Five Points unions will be represented.

The April meeting of Derby W.S.C.S. will be held at the home

of Mrs. Dwight Spangler, assisted by April division.

Mrs. James Furniss and daughter were returned last Monday from White Cross hospital to their home here.

Mrs. Harry Ridgway entertained to a birthday surprise for Mr. Ridgway last Friday evening.

A large crowd attended the basketball banquet at the school auditorium Tuesday evening of last week.

Mr. and Mrs. Leslie Courter, Mr. and Mrs. James Musselman and Mrs. Esther Musselman motored to

Washington D. C. to see the cherry trees in blossom.

A surprise birthday dinner for Troy McPherson was held in the McPherson home Sunday. Guests were Mr. and Mrs. J. E. McPherson, Mr. and Mrs. H. B. Graham, John McPherson and family, and Mr. and Mrs. Jack Hughes.

Friends and relatives from here attended the funeral Wednesday of H. C. Justus in Kirkpatrick Funeral Home at New Holland. Mr. Justus died Sunday in his home near Madison Mills. Mrs. Justus was the former Mary Eaken of this community.

Mrs. John Gessner who was here

attending the funeral of her sister, Mrs. R. S. White, returned to her home at Coral Gables, Fla., last week.

Misses Ruth, Thelma, Lucille and Martha White who have been living in Columbus have moved to the home of their father, R. S. White.

Kermit Ridgway, who is attending Otterbein College, Westerville, has been spending the Spring vacation with his parents, Mr. and Mrs. Reay Ridgway.

Heat canned hominy in the top of a double boiler with salt, pepper, butter or margarine and a little cream. Serve with baked ham.

## Weekly Food Review

By Associated Press

Veal will be a good buy in many of the nation's food stores this weekend. Also on the feature list: Beef and chickens.

There'll be specials in some markets on shoulder veal roast and legs or rumps of veal.

Stores over the country have picked a wide variety of beef cuts a weekend features. You may find lower price tags on chuck roast, pot roast, stewing beef and round, chuck and cube steaks.

Chickens will show small price changes either way this weekend. Legs of lamb will show little price change from a week ago. Pork chops will be unchanged to four to six cents a pound higher.

Butter is headed lower. Eggs also will be lower in many markets. Agriculture Secretary Benson put in a plug for milk this week. Benson said research studies show it would cost 42 cents for the same nutrients from other food sources that a quart of milk priced at 22 to 26 cents provides. He added

that many marketing areas should see a decline in milk prices as a result of the lowering of support prices for dairy products.

Coffee can hardly be described as a bargain. Some chain stores boosted the prices of their own brands a nickel a pound this week while coffee roasters added five to six cents to their wholesale prices.

Some in the industry are sure that \$1.50 coffee is inevitable. In the vegetable line, you'll find plentiful supplies of celery, potatoes, onions, cabbage and spinach at reasonable prices. Also qualifying as good buys will be peppers—especially the smaller sizes, sweet potatoes, escarole, kale, collards, corn and eggplant.

Grapefruit and oranges will be among the fruit buys offered for the weekend.

### Aly Purchases Cowboy Outfits

HOLLYWOOD (AP) — Prince Aly Khan has bought himself \$200 worth of cowboy shirts, pants and wide-brimmed hats to wear when he returns to Europe.

The prince, shopping in a San Fernando Valley Western outfitting store while his heart interest, actress Gene Tierney, was busy at her studio, duly impressed a woman clerk.

"He was wonderful," she said, adding that he fitted the clothing "absolutely beautifully."

Aly plans to go to New York next week to visit his former wife, Rita Hayworth, and their daughter Yasmin.

HERE'S a closeup of a Communist-led Vietminh captured in the fierce Dienbienphu battle, where the French and Vietnam forces are besieged. This chap was taken while participating in suicide charge. (International)

### Traffic Signal Brings Confusion

NOGALES, Mexico (AP) — Traffic lights installed in this Mexican border town yesterday, and the result was worse than anything on bull-fight days.

Brakes screeched and traffic piled up as confused motorists plunged through red lights and others skidded to a stop in fright. At one time cars headed across the border were stacked up for two blocks.

### Laurelville

Miss Patty Steel, daughter of Mr. and Mrs. John Steel, was returned to her home Tuesday from Doctors Hospital, Columbus.

Mrs. Dessie Knox of Columbus spent several days last week with her parents, Mr. and Mrs. Bert Wiggins.

Mrs. Maud Walker of Hilliard and Mr. and Mrs. Bud Kelley of Columbus were weekend guests of Mr. and Mrs. George Swepston.

Mrs. Evelyn Notestone and children Diana, Mickey and Damon of Lancaster were weekend guests of Mr. and Mrs. Jack Notestone.

Mr. and Mrs. Hugh Poling and son Michael were Sunday guests of Mr. and Mrs. Cliff Armstrong of near Stoutsville.

Misses Jane and Sharen Allen were hostesses to the Junior Youth Fellowship meeting Tuesday evening in the church basement. Mrs. Tom Rose and Mrs. Hugh Poling

## Library Announces April's List Of Educational Movies

Ohio ranks among the top states in popularity of educational films, and the "quickie movies" continue in strong demand at Pickaway County District Library here.

The library announced Thursday the list of educational films available for rent during the month of April. The list, showing title of the film, approximate time, and a brief description, was issued as follows:

**ANDY'S ANIMAL ALPHABET**, 10 minutes: Andy, the zoo's small orangutan, takes us on a guided tour through the Bronx Zoo pointing out both familiar and strange animals.

**BIG LEAGUE GLORY**, 10 minutes: Shows the New York Giants' baseball farm and explains how it helps the methods of developing big league talent. Views the plaque honoring baseball's immortals in the Baseball Shrine at Coopers town, N. Y.

**CANADA**, 11 minutes: Western, industrial, maritime, and French, the four main divisions, are shown. Views Canada from geographical and historical standpoints concurrently.

**EXPLORING SPACE (HAYDEN PLANETARIUM)**, 9 minutes: A trip through space showing the major planets and the eclipse of the sun. Excellent commentary.

**THE FAMILY—AN APPROACH TO PEACE**, 18 minutes: This film emphasizes better understanding between the people of various nations by showing that the family unit is much the same throughout the world in spite of different customs.

**FRUSTRATING 4's AND FASCINATING 5's**, 20 minutes: Roddy's behavior at home and in kindergarten when he is four is contrasted with his behavior at five years.

**HUNTING WITH BOW AND ARROW**, 19 minutes: An exciting journey through the wilds of Tampico, Mexico, with Andy Vane, famous explorer and renowned archer.

**JORDAN VALLEY**, 19 minutes: Jordan Valley represents the geographical background of the Scriptures. A trip along the river from Palestine to the Dead Sea shows many places of Biblical importance.

**OUR BILL OF RIGHTS**, 20 minutes: Re-creates the forming and adopting of the first ten amendments, or the Bill of Rights, to the Constitution.

**PATTERN FOR SURVIVAL**, 16 minutes: Explanation of the effects of the atom bomb and what civilians can do to protect themselves in case of an attack.

**ROMANCE OF RADIUM**, 10 minutes: Story of the discovery and curative power of radium with special emphasis on the work of the Curies and Becquerel.

**UPBEAT IN MUSIC**, 17 minutes: Music in the United States—Anderson, Elman and others.

**WEATHER WIZARDS**, 9 minutes: The work of a modern weather bureau and its role in our economic welfare.

### False Alarm Sent To Secure Aid

**PITTSBURGH** (AP)—Jesse Hale pleaded guilty yesterday to sending in a false fire alarm. He needed help, he told the judge, because his wife had fallen down and he couldn't pick her up. She weighs in the neighborhood of 270 pounds, he said.

The judge placed him on probation for two years.

## Liquor Control Unit Rejects Application

The State Department of Liquor Control has announced rejection of an application filed by Circleville's Fraternal Order of Eagles lodge for a D-4 liquor permit.

Special hearing was held here last January 4 on the application. It was announced at that time that a ruling could not be "expected for several days."

The FOE lodge, located on E. Main St., had applied for a new club license to replace one that was suspended following a raid on the local clubrooms. The new application was protested at the January hearing by spokesmen for the Methodist Church and Pickaway County District Library, both located in the same vicinity.

In rejecting the application, the liquor department said the objections were well founded.

An appeal from the decision, under the law, could be taken to the Board of Liquor Control.

## Woman, 103, Dies; Remembered Abe

**ARTESIA, Calif.** (AP)—A woman whose fondest recollection was of being held on Abraham Lincoln's lap when she was a child is dead at the age of 103.

Mrs. Mary E. Bain, born in Ottumwa, Iowa, resident of Artesia and nearby Long Beach for 47 years, died Tuesday.

DRAMATICALLY DISPLAYING switchblade knives confiscated by Washington police in criminal assault cases, Rep. James J. Delaney (D), New York, tells the House Interstate commerce subcommittee that traffic in such knives has become a menace to public safety throughout the U. S., and that they should be outlawed on a nationwide basis. (International Soundphoto)

## Autoist Beaten By Four Youths

**TEMPE, Ariz.** (AP)—Jerrell Brooks shouted at a car which had made an illegal turn in front of him. The car turned around, four youths inside forced Brooks, an Arizona State College student, off the highway and beat him up. Then they drove into his car, causing \$85 in damages.

The new 200-horsepower Buick Century Convertible—sleek, smart, spirited—and available in gorgeous new summer colors.

## We have a line the gals go for (Have you seen our Spring Fashion Show?)

YOU can't fool the ladies when it comes to styling.

From clothes and hemlines, to cars and color schemes—they insist on a fresh new look and a fresh new change—and anything else won't do.

So it's easy to see why the gals—bless 'em!—have been going for Buick in a great big way—going for the glamorous modernity of these new-day automobiles ever since the first public showing a few short months ago.

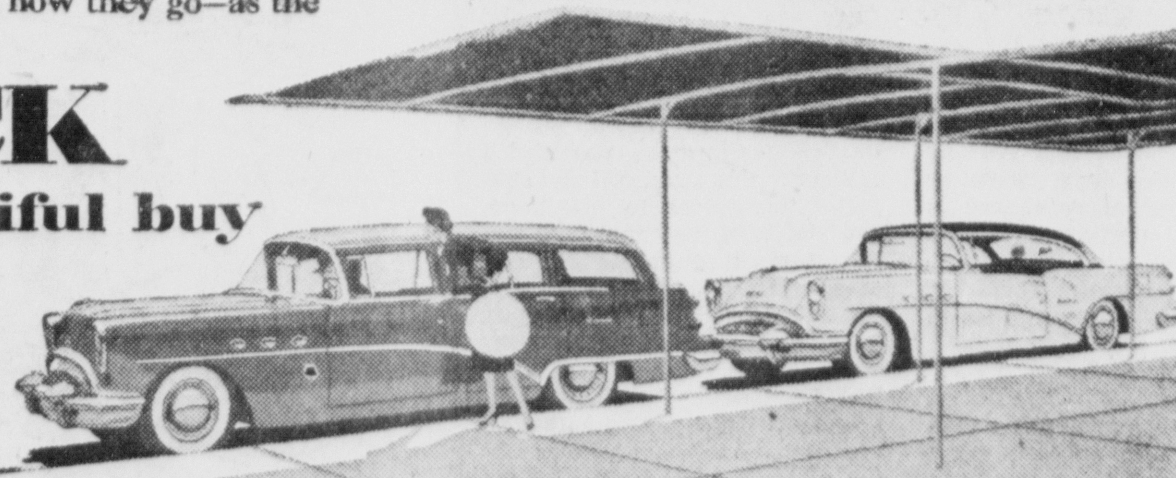

From the beginning, they've been going for the sleeker, longer, lower lines—the futuristic shaping of the new windshields—the stunning décor of the striking new fabrics—the clean simplicity of the new instrument panels.

But you ought to see how they go for the gay new car models in Buick's Spring Fashion Show! Fresh new Convertibles, Rivieras and Estate Wagons never before available—and in gorgeous new summer colors never shown before!

And you ought to see how they go—as the

**A SUBSTITUTE NATO?**  
IF THE EUROPEAN Defense Community plan falls through, Washington planners are reported to have a new alternative to propose. Previously there had been talk, mostly in pique, that if the French continued to hold out, the West Germans would be brought directly into NATO, or the U. S., with or without Britain, would rearm the Germans unilaterally.

The former course is admittedly impracticable, however, because it would require unanimous consent of NATO members, France included, while the latter would so alienate the French they might wind up in Russia's orbit.

The new scheme tentatively considered entails European confederation, instead of federation. Most palatable gimmick is that participating nations would keep their sovereignty intact instead of giving some of it to a central federation.

But confederation is being kept under wraps lest it give the French Assembly a ready-made excuse to duck EDC completely. The French generals and politicians would eat it up, even at the price of condoning a resurgence of a German military command.

Federation was intended as more than a vehicle of military amalgamation. Its nose was also headed toward economic and ultimately political union. Confederation would change the direction and maneuver the situation back to just another power alliance. In many respects it would resemble a junior NATO in disguise.

**SURPLUS SALESMEN**

A GROUP OF 19 farmers will make a tour of Europe, under auspices of the Department of Agriculture, to explore the possibilities of increasing international trade in food and fiber.

Specifically, their mission will be to sell surplus products which have become a burden to the department and farm economy in general.

Secretary of Agriculture Benson has announced that liquidation of the surpluses will be the first order of business so far as his department is concerned. He has warned that a great financial loss to the nation will be involved, but the alternative as he sees it is a total loss through spoilage. Butter, wheat and cotton will be the principal items offered to the nations visited.

Among countries to be included in the itinerary are France, Italy, Spain, Greece, Portugal, Germany, Egypt, Turkey and Israel, all regarded as potential customers because of economic conditions within their borders.

**NATIONAL WHIRLIGIG**  
news behind the news

WASHINGTON — The latest studies and developments in germ warfare disclose that the United States lacks possible enemies in offensive and defensive preparations against this threat, which is reported to be valued by Moscow as a more formidable weapon of world conquest than A or H bombs.

There are still great gaps in our protection against biological warfare. They result chiefly from the general population's ignorance of an disregard for this kind of destruction of human, animal and food plant life—a problem which Federal Civil Defense Administrator Val Peterson finds difficult to remedy without causing undue alarm.

He urges all state, city and county officials, as well as physicians, nurses and other public health personnel, to write for his technical manual on this subject.

It would be advisable, too, for individuals to obtain it. The document may be bought for 20 cents from the U. S. Government Printing Office, Washington 25, D. C.

**REDS WORK**—Meanwhile, military and scientific experts at a Maryland laboratory outside the Capital are preparing for both the use of biological warfare and defense against it. They have definite knowledge that prospective enemy nations are working as feverishly in this field as in that of nuclear energy.

As expressed by Maj. Gen. E. F. Bullene in a recent issue of the Armed Forces Chemical Journal, "Germs, not generals, may win the next war." General Bullene retired as chief chemical officer of the Defense Department a week ago.

Writing in the same magazine, Dr. John J. Phair gives all the details about this untried and untested form of warfare that national security permits. He has been a consultant on this subject to the Department of Defense, the Federal Public Health Administration and Federal Civil Defense. He helped to prepare the C.D.'s manual on this unknown enemy.

**DANGER**—They point out that almost every kind of disease, infection and pest can be delivered against man, animals and plants by artillery shells, airplane bombs and spray generators, subs and surface craft, and by sabotage. In their opinion, the most insidious danger is from inconspicuous sabotage rather than from an aerial fleet dropping toxic stuff.

Full-scale civilian defense is almost impossible. For one thing vaccination of the whole population is not practicable. Secondly, there is no general overall antitoxin against an unknown combination of hostile germs. Moreover, many people are allergic to even the simplest kind of vaccination.

Another vulnerability factor is the delay and difficulty in detecting and identifying the actual germ (disease) which the enemy has used. Routine sampling of possibly contaminated air, water, milk, foods and growing crops may take days, weeks or months. Principal safeguard is the prompt reporting of suspicious epidemics, or of unusual absenteeism in schools, factories, public offices, churches, social organizations, etc.

**IMPREGNABLE**—The United States is more impregnable than possible enemies against germ warfare, but not because of any specific military or scientific defense. Our strength lies in our advanced system of public health, city, county, state and federal, and in our fine medical and nursing personnel. Another safeguard is our people's general knowledge of personal cleanliness and hygiene.

In Communist Russia, China

**George E. Sokolsky's**  
**These Days**

The dismissal of Marshal Juin of France because of his opposition to the European Defense Community, the opposition to Winston Churchill arising out of the horror in England over the hydrogen bomb tests, the increasing political difficulties in Italy, and the general trend toward neutralism in Europe ought not to be ignored by the American people. The heart of the American foreign policy in Europe is the European Defense Community.

A year ago, Drew Middleton, a competent observer of European affairs, wrote: "The new attitude has generally been described as a 'slow down,' a 'cut back' and a 'levelling off.' More accurately it is a change in direction. After feverishly seeking divisions, air squadrons and destroyer flotillas for three years, NATO turned, for various reasons, to perfecting the weapons it had on hand and expanding the logistical basis on which troops, planes and ships must operate."

He explained: "Some governments which had promised their people a return to normal conditions at home found that the promise could not be kept unless the rearmament schedules set at Lisbon were reduced. And the economies of some just could not stand increased diversion of civilian production to arms. But what happened in Paris was also an expression of what is happening throughout Western Europe—a change in the entire attitude toward the exigency of rearmament. This is a salient fact that must be grasped if President Eisenhower and Secretary of State Dulles are to give new life to European defense."

This warning may have been noted in the White House and the State Department, but most of our people seem unable to grasp the fact that it has become impossible for such allies as we have to go along with a program which is aimed at a defense against the rising power of the Soviet Universal State. Public opinion throughout the world is war weary, and while the American argument has been that E. D. C. is a protective against war, we have not been able to convince enough people in most countries that we are right.

If such a defense cannot be brought into effective being, what are the alternatives for the United States?

1. The hydrogen bomb is obviously a weapon of desperation which both sides have developed with the object of producing fright. Such a weapon could not be used by either side without the peril of suicide. For instance, if it is true that one hydrogen bomb can destroy the whole of the British Isles or most of its area, who will use the bomb against the British? Or, conversely, if the British really fear the use of such a bomb, have they any alternative but to side up to both sides of the conflict to avoid being destroyed by either, or to the strongest of the moment, in the hope that he will not bomb them?

(Continued on Page Eleven)

One hydrogen bomb could wipe out the largest city in the world, it is asserted. The human race has created its own Sword of Damocles.

Feet of the average American man are two inches longer than 40 years ago. Whether he has a better understanding is a matter for argument.

**CAMEO**  
by HELEN TOPPING MILLER

**SYNOPSIS**  
Gale Taber, a widow, had refused Sewell Albright's repeated offer of marriage, feeling that it would be unfair to foist upon this one old family friend, her ever mounting debts, even though Sewell could well afford to pay them. She had carried on the business of breeding blooded horses on her farm in Tennessee after her husband's death, but a market for luxury stock had vanished. Then, too, there were her 12 lively daughters. Ravel and Julia, to be considered in any family plans. Ravel, her older girl, was a handsome, red-haired, spirited almost beyond control. She devoted herself passionately to the training of the Taber horses, while her younger sister, Julia, seemed content as a student nurse at their local hospital. One rainy November afternoon, Julia brought young Dr. Pete Marshall home with her from the hospital to meet her family and John-Mark Williamson, a neighboring young farmer whom everyone thought to be in love with Ravel. But he was no time turning her guns of conquest upon the attractive doctor, presumably her sister's beau. Julia favored John-Mark as a possible husband for Ravel. He was level-headed, substantial. He might even tame the restless, fiery Ravel.

**CHAPTER FIVE**  
WHEN the fire crackled successfully Julia piled on some wood and swung the little copper kettle on the crane over the fire. Thea would expect them all to sleep late on Sunday, but at least she could have a cup of coffee. She gathered up all the abandoned china and carried it to the kitchen, where the big, old-fashioned range stood cold and unattended.

When the little kettle steamed, Julia set some to brew in a small tin pot and sat down on the rug before the fire to drink it. A door slammed presently at the back of the house and she heard the swish of a broom sweeping off snow. Julia picked up her empty cup and went into the kitchen.

"Good gracious!" she exclaimed. John-Mark was bending over the range, putting with the dampers. "Hi!" He grinned at her. "Thea had a fall a few minutes ago—nothing busted, I think, but she's shaken up and bruised. I'll run over to call me, thought you were all asleep. Fortunately, she's got plenty of fat to fall on, but it took both of us and two stable hands to carry her back to her house."

"I'll go and see about her right away," Julia pulled down the old sheepskin coat that hung behind the door. "You turn that thing at the back, John-Mark, and then the fire will draw. Good of you to come over through all this snow."

"Don't go out in those thin shoes," he protested. "It's six inches deep and soaking wet. Here, step into these." He jerked off his high boots and held them out.

"I'll break my neck in those tremendous things and you'll catch cold on this icy floor in your sock feet."

"No, I won't. Don't try to lift your feet, just shuffle 'em along. Here, step into 'em. I broke a path. Thought I'd better come and tend your fies. Gale and Ravel don't know from nothing in a kitchen, so Thea says."

He held the door open for her as she maneuvered the heavy boots outside. She was out of breath when she stumbled into Thea's hot, airless little cabin, where the colored woman lay in a mound on a tumbled bed.

Swift, deft examination convinced Julia that no bones were broken and that the woman could move all her limbs.

Twenty-six cases of contagious diseases were reported to county health authorities during March.

An ordinance is being drafted by city council to prohibit parking of autos in alleys of the business section of Circleville.

City school students had a free day to allow teachers to attend a state meeting in Columbus.

**LAFF-A-DAY**

**SCARES**—General Bullene refutes Sunday supplement and magazine "scare" stories to the effect that a ton of mustard gas can kill a million people. It is true that there are a million death doses in a ton, provided a million people stood still and subjected themselves to injections. But statistics show that it took a ton of mustard gas to kill one soldier in World War I.

General Bullene relies most heavily on our advances in sanitation and preventive medicine. The London plague of 1664, he notes, required six months to cross from one side of the city to the other. It was a year before it reached its peak, with 70,000 deaths. Had the American system of sanitation, prevention and treatment existed, he says that the plague would have been stamped out quickly with little or no loss of life.

Nevertheless, it would be wise to spend 20 cents for Val Peterson's anti-germ warfare manual.

and satellite countries, the medical and sanitary knowledge, personnel and facilities are relatively primitive. They would be far more helpless against a biological attack, which means that they may never dare to engage in this kind of lethal warfare against civilians.

My secretary is obviously overpaid, since she hired a new maid last week. Salary and hours had been agreed upon when the applicant suddenly inquired, "Do you folks do your own stretching?" "I don't get what you're driving at," admitted my sec. "Stretching," repeated the maid impatiently. "Kin I put the food kerplunk on the table?"

"I wish we had some neighbors. What's the use of having a picture window if there's nothing to look at but scenery?"

## Circleville Garden Club Members View Cuban Scenes

### Mrs. Nat Lefko Hosts Meeting

Circleville Garden club members and guests enjoyed movies in color of the Southeastern section of the United States and of Cuba when the group met in the home of Mrs. Nat Lefko of E. Franklin St.

The movies, shown by Roy Wood, were made by Mr. and Mrs. Donald H. Watt during a recent tour of this section. Mrs. Watt narrated the story as the pictures were shown.

Among the floral scenes shown were pictures of camellias, hibiscus, yellow jasmine, which grows like honeysuckle, and crotons. Settings for these tropical plants showed the white sand beaches, blue waters, flamingos, pelicans, sea gulls, reptiles and Brehma cattle for which Florida is noted.

A view of the first oil well of Florida, located in Miami, was depicted, as were Hialeah race track, Edison's Garden, Sarasota Jungle Gardens, and views of alligator farms, white birds, herons and cranes in the Everglades.

Mrs. Watt noted the presence of a great number of beggars in Cuba, which has hourly plane service from Florida. Products of the island include Cuban mahogany, rum and alligator shoes, belts and purses.

Population, the capital city with a population of one million, is divided into the old Spanish quarter and the new section. In contrast to the old city with its narrow one-way streets, is the new Havana with wide, modern streets, a fine hotel, the El Tropicana, world famous night club, the world's longest bar, and a noted cigar factory.

Pictures of the old quarter showed patios, marble stairways, and the Lady of Mercy Cathedral, with its famous patio and ceiling painted by noted French and Italian artists.

The speaker noted that the capital building, which is made of Cuban mahogany, has a twenty-four carat diamond set in the middle of the floor. She stated that Morro Castle, an ancient fort with a dungeon room and a torture room, now is used for army training.

Cuban cemeteries are built above ground and feature black marble mausoleums. A strange custom of the inhabitants is that everyone walks to funerals. The mourners are all men, with the women following an hour later carrying flowers.

Mrs. Guy Heffner conducted a business session, welcoming guests who included Mrs. Tom Bennett, Mrs. Howard Smith and Mrs. Elizabeth Young.

Mrs. Lefko and Mrs. Watt were prize winners for their arrangements of narcissi and Mrs. Watt and Mrs. L. W. Curl took top honors for tulip arrangements.

Refreshments were served by the hostess, assisted by Mrs. Channing Vierebome and Mrs. Ruth Wignel.

### Democrats To Meet

A joint meeting of the Pickaway County Democratic Women's club

### Laurelville Church Women Elect Officers

Womans Society of Christian Service of Laurelville elected officers during a meeting held in the home of Mrs. Darley West.

Mrs. George Swepston was elected president; Mrs. Alice Morris, vice president; Mrs. Hugh Poling, second vice president; Mrs. Robert West, secretary, and Mrs. Frank Cox, treasurer.

Mrs. Winfred Dumm will serve as secretary of Spiritual life; Mrs. Tom Rose, secretary of youth work; Mrs. Pearl Armstrong, promotion secretary; Mrs. Arthur Hinton, literature secretary; Mrs. Wilson Ross, secretary of local church, and Mrs. Lloyd Whisler, secretary of missions.

Twenty-four members and one visitor were present for the meeting, which opened with devotionals read by Mrs. Russell Anderson. The topic, "Who Are Guilty?" was given by Mrs. Ed Fetherolf and a prayer was offered by the Rev. Richard McDowell.

The group voted to donate to a youth program at Lancaster Camp Ground. Mrs. S. O. Liming gave a report on an annual Chillicothe District meeting of the Society which was held at Logan.

Refreshments were served by the hostess, assisted by Mrs. Irvin Beougher and Mrs. Raymond Hedges.

### Monroe Group Holds All-Day Metal Session

Thirteen members answered roll call when Monroe Area Home Demonstration group held an all-day meeting in the Ladies Aid Hall in Five Points.

The morning session was spent on metal craft, under the leadership of Mrs. Ralph Dennis. Mrs. Winfred Bidwell and Mrs. Leora Sayre.

A covered dish lunch was served at noon, followed by a short business session. Election of officers was held for the coming year. Mrs. Noah List will serve as vice councillor and Mrs. Joe Armentrout was elected secretary-treasurer.

Those present were: Mrs. Armentrout, Mrs. Bidwell, Mrs. Harvey Brigner, Mrs. Dennis, Mrs. Paul Houser, Mrs. List, Mrs. Kenneth Shell, Mrs. Loring Storer, Mrs. Lyle Davis, Mrs. Carl Duddleson, Mrs. Ben Conley, Mrs. Russell Timmons, Mrs. Willis Conley and Mrs. Sayre.

Color in the home will be discussed by Mrs. Sayre at 1 p. m. April 23 in the Aid Hall.

and the new Democratic club will be held at 7:30 p. m. Tuesday in the Court Room.

Final plans for a Jefferson Day dinner are to be discussed and reports on ticket sales are to be made.

### Personals

Mrs. George Macklin of Saltcreek Township will be hostess for the April meeting of Berger hospital Guild 12 in her home at 8 p. m. Friday.

Mrs. Walter Heine, commissioner of Circleville and Pickaway County Girl Scouts, is attending a training session for commissioners in Cincinnati.

A Home Demonstration planning meeting is to be held at 1:30 p. m. Monday in Duvall school.

Mrs. Bess Rife was a recent caller in the home of Mr. and Mrs. Ray Ankrum of Stoutsville.

Jackson Parent Teacher Society will meet at 8 p. m. Monday in the high school auditorium. Dwight Radcliff, Pickaway County Deputy Sheriff, will speak on safety. A musical program and refreshment are planned.

Mr. and Mrs. Ray Ankns entertained Virgil Courtwright Wednesday afternoon in their home in Stoutsville.

### Conkel-Tate Wedding Rites Held In Indiana

Mr. and Mrs. Frank Conkel of Circleville Route 3 are announcing the marriage of their daughter, Marjorie, to Harold Tate of Perryville, Ky.

The ceremony was performed March 8 in the Church of Christ at Liberty, Ind., by the Rev. Mr. Dowden.

The bride chose for her wedding a navy suit with accessories in red. She wore a corsage of red rose buds.

The new Mrs. Tate is employed by Gallaher Drug Company and Mr. Tate is serving in the Air Force at Turner Air Force, Base, Albany, Ga.

### Davis Home Is Scene Of Dinner Party

Mr. and Mrs. Clifford Davis entertained at a dinner party in their home near Kingston.

Guests for the occasion were Mr. and Mrs. Glenn Jackson and daughter, Linda of Columbus; Mr. and Mrs. Emmitt Ankrum and daughter, Marilyn; Mr. and Mrs. George Ankrum and daughter, Nancy and Mrs. Marie Goodman.

Mr. and Mrs. Glenn Prushing and son, Ricky; Mr. and Mrs. Stillman Morrison and son, Terry; Miss Rita Edgington, and Miss Jean Morris, all of Circleville, and Bob McConnell of Lockbourne.

### Junior Women Present Funds To City School

Checks totaling \$200 were mailed this week to city schools by Mrs. Paul R. Porter, Circleville Junior Woman's Club treasurer. The money represents a major part of the proceeds from the Children's play "Puss In Boots" which the Junior Club sponsored.

Because the play is supported by the school children of Circleville and the county, The Junior Club members have established a policy, over the period of years during which they have sponsored the plays, of returning the profits to school children.

The committee stated that next year's profits will be set aside for the rural schools and the committee is working on a suitable project for carrying out this plan. The remaining proceeds from this year's play are to be added to the club's Nursing or Education Scholarship fund which is awarded each spring to a Pickaway County High School girl graduate.

According to school officials, the money received by each school will be used as follows: High Street School will use its check toward the purchase of a record player, Walnut Street School will buy film strips; Franklin Street will apply the check toward the purchase of a typewriter or in expanding the school library; Atwater School will buy film strips and Corwin Street is buying a record player.

Members of the Junior Woman's Club committee who met with school officials on this project were Mrs. Richard Funk, Mrs. Vernon Weiler, Mrs. Norman Kutler, Mrs. Paul R. Jackson and Mrs. William A. Rickey. Mrs. Steve Brudzinski is president of the club.

Never spray cherries, plums and crabapples with oil unless they are heavily infested with scale. Then wait until the sap is active and buds are just about to swell. Spray when no freeze is likely.

# The McCarthy Story: He Gives Box Score

Editor's Note — Sen. Joseph McCarthy, in an interview with two veteran Associated Press reporters, was asked about his campaign to dig out Communists. Here is an up-to-date statement of the senator's views.

By JACK BELL and REXMAN MORIN

WASHINGTON (AP)—Sen. Joseph McCarthy says "a sizable number" of the 81 he listed in a Senate speech four years ago as Communists or fellow travelers in the State Department "have been removed."

Of 30 or more in defense plants who pleaded the Fifth Amendment before McCarthy's investigating committee, "they have all been either suspended or fired," the senator says.

The idea of a box score on the success of the committee has, he says, "a lot of merit."

"I think it could be useful," he told two questioners in an exclusive recorded interview. Roy M. Cohn, the committee's chief counsel, also sat in on the session. Here are the questions, and McCarthy's answers:

Q—Some of the chairmen of investigating committees have published in the Congressional Record a box score of the results of what they have done. Do you plan anything similar to that in the near future?

McCarthy—It hadn't occurred to me. It might be a good idea.

Q—Would you consider keeping a running box score week by week or month by month, or something of that sort?

A—If any of the members of the committee wanted it, yes.

Q—I mean for your own personal use. You are always alluding to how many Communists were in such a position or in such place. If you keep a box score, wouldn't you have it at your fingertips?

A—I think it is a good idea. In fact, it is a good idea for the speeches from now on.

Q—How would you break this down, such a box score, in categories? You have talked about Communists. You don't usually use the words "fellow traveler." You have said the "Communist associates." You have also said "Fifth Amendment Communists." Would you break that down into gradations of these people?

A—I suppose you would have to break it down because there is a difference between a man who has been named an espionage agent, a man who has been named as a spy in a high planning position, or the Communist who is, we will say, driving a truck in a defense plant. There is certainly no comparison between the two insofar as the damage they can do is concerned.

As I say, it is the first time that an idea of keeping a box score has been broached. I think it has a lot of merit. I think it could be useful. I think, Roy, you should give that some thought.

What is your present figure for the number of Communists, Fifth Amendment Communists, and of Communist associates, take those three categories, on which you claim you have turned up or your committee have turned up?

A—First, I suppose we will have to go back to the old figure of 81 that I gave to the Senate. A sizable number of the 81 have been removed from week to week.

Q—Those are the 81 cases you cited in that Senate speech?

A—Yes. That included the 57 that I mentioned over at Wheeling, W. Va. I think the most recent of those cases which is getting attention is the case of John Paton Davies.

(Davies is counselor to the U.S.

Embassy at Lima, Peru. He was cleared seven times by State Department loyalty-security boards, and once by the top government loyalty review board under the Truman administration. Secretary of State Dulles has announced that Davies will go before a special security board to clear up "conflicting points" raised in a new investigation.)

What will be done about his case, I don't know. I frankly couldn't at this time give you a complete list of the 81 who have been removed from government. In the book that I wrote a short time ago—not a short time ago—two years ago we had a list, which is not up to date now. I have no way of following the 81 except by a personal investigation. Under the present rules, under the old Truman order, we cannot get that information from the government. In other words, whether they were discharged for security reasons, loyalty reasons or what.

As to defense plants, Roy, how many took the Fifth Amendment who were working in defense plants? Do you remember the figures?

Cohn—In public session it was something over 30 who were fired as a result of the investigation.

McCarthy—What is the figure of 81 that somebody gave me the other day?

Cohn—That is a composite figure.

McCarthy—That includes more than Fifth Amendment cases.

Cohn—It includes Fifth Amendment cases but not all of them were currently employed at that time.

McCarthy—So as of now, Roy, you would say that over 30 who were in defense plants, which plants in turn were handling classified defense work, have appeared before the committee and refused to answer whether they were Communists on the grounds of self-incrimination; some of them even refused to answer whether they would sabotage the plant if they were ordered to do so by the Communist party, and they have all been either suspended or fired.

Cohn—That is conservative.

McCarthy—I might say that General Electric, which does a lot of defense work, adopted the rule of removing Fifth Amendment Communists after we started our hearings. Then, of course, keep in mind also that at Ft. Monmouth, according to the news stories, some 32 individuals were suspended. That doesn't mean that they were all guilty. Some of them were reinstated because they were called before our committee and acquitted themselves very well, showed they had some Communist connection a number of years ago but convinced the Army authorities, who were listening, that they were not bad security risks. I don't know how many of the 30 odd have been reinstated because we have been tied up in other work recently.

Q—In connection with that—

McCarthy—Can I state just one other thing? I think you ought to pick out some of the worst cases. You would take someone like Levine who was handling top secret, had been for 10 years, in telecommunications. They do top secret radar and electronic work, and "crypt." The day we served the subpoena, on Dec. 13, she did say she was not an espionage agent but refused to tell whether or not she had been delivering secret material to espionage agents.

Q—L-E-V-A-N?

Cohn—Ruth L-E-V-I-N-E.

McCarthy—She was before the committee on the 16th, called on the 13th. Incidentally, the security officer over there I think has been doing a pretty good job, don't you, Roy?

Cohn—Yes. He is a former FBI man.

McCarthy—No matter how good a job they are doing keep in mind they can't put a witness under oath and swear them, subject them to indictment for perjury if they testify falsely. So the committee has quite an advantage in digging them out.

Q—I want to ask you in connection with that what is your attitude toward the people in government who you have said in the past, "think like a Communist." How do those people figure in this whole supposedly espionage system which you are investigating?

McCarthy—I don't recall the phrase being used in connection with Communists. I think I was referring to teachers who act like, think like and do all the things that a Communist would do. You don't know whether they belong to the party or not.

Q—In your own mind are those people as guilty of acting against our government as a Communist himself, people who think like Communists?

A—Let's not talk about "thinking." Let take the people who do all the things the Communists would do. If they are teaching school, if they would teach the way they would teach under Communist discipline, if they follow the Communist party line, if they are acting as a Communist is acting, if they are following a Communist line certainly anyone who is teaching conspiracy and treason should not have a captive audience in a school.

Q—Suppose they are not teaching conspiracy and treason but merely teaching what communism is? Is there a difference in your view?

A—Of course there is. I think it is impossible to fight communism unless you know all about it. Unfortunately, many people have confused teaching what communism is with advocating communism.

Q—You would draw a definite line between telling school students what communism is and in some way advocating it, then?

A—There is no comparison. It is like the difference between teaching about the dangers and the evils of crime or advocating murder.

Q—In that same line, Sen. Flanders said in the Senate recently that while you are active in pointing out the dangers of communism within you seldom mention the dangers of communism without, that you seldom mention Russia. Is there any reason for that of is that true?

A—I don't think it is necessary for me to talk about the dangers of communism from Moscow. That is very easy. It is a very popular sport. You find politicians from coast to coast during a campaign waving their arms and talking about the evils of communism a couple of thousand miles away; while there is certainly danger from without, the biggest danger is from within.

As Abraham Lincoln said some time ago—I can't quote him verbatim; I will let you do that—

Q—You flatter me.

McCarthy—He said, "All the Armies of Europe and Asia combined, with all the wealth of the world in their military chests, with a Bonaparte as a commander, in a trial of a thousand years could not make one track upon the Blue Ridge nor could they take one drink from the Ohio." He said, "From whence then will danger come. If this country is to be destroyed, it will be destroyed from within or live for all time to come." I agree with that heartily.

Q—In your investigation—

A—Let me finish one other thing. One Communist spy in the State Department, in policy division, can do tremendous damage while one Communist spy over in Moscow can do us very little damage.

Q—You mentioned the State Department. When you get around to the armed services, however, you seemed thus far to have investigated only the Army in any major way. Is there any reason for that?

A—If we found any Communists in the Air Corps or in any other branch, we of course would have to expose them. We have only found them in the Army so far. I think we should emphasize the fact, that the vast majority of the officers in the Army who have contacted me in regard to this investigation—a great many have, especially in the last week—are heartily 100 per cent in favor of exposing any Communists that are found.

Our difficulty comes principally from the civilian Pentagon politicians, if I may refer to them as that.

Q—Are they in all services, "the civilian Pentagon politicians" or are they only in one, the Army?

A—Our principal difficulty has come from the legal departments so far.

Q—Of the Pentagon, representing all the services or the legal department of the Army?

A—Both the defense establishment and the Army. A good example of how officers feel, I think, was demonstrated by Gen. (Kirk) Lawton, who is the commanding officer of Ft. Monmouth, which we investigated. He was before the committee. I can't quote it verbatim as I don't have the testimony here.

Roy, see if this isn't substantially what he said.

I said, "General, why did you wait until we started our investigation before you started to suspend these people with Communist records?"

He said, "Your question is the answer, senator." He said, "I wouldn't get the backing until you started your investigation." Then he went on to tell us of all the cases that they had suspended, some with very bad records. They would get by the 1st Army's loyalty board. Then, of course, if the 1st Army's loyalty board agreed with the commanding officer at Ft. Monmouth, the appeal would be to the board in the Pentagon. They call it the screening board, or something like that. Almost without exception they would reverse the findings and send the man back and order him reinstated and back pay would be paid to him. That board was disbanded, incidentally, during our Ft. Monmouth hearings. A different board was set up with different personnel.

Q—There has been some question in the minds of some people, which they have expressed publicly, that your objective in this committee investigation is to expose information already in your possession rather than trying to uncover new information about people. What do you say to that sort of theory in connection with your investigations?

A—I am not sure that I follow you on that.

Q—Well, there are contentions that you have this information, that you have obtained it some-

how, and that you hold your hearings not to obtain new information but merely to expose what information you already have, that you are not gathering new information by your public hearings.

A—The principal purpose of a public hearing is to let the public know what is going on. As far as getting information ourselves is concerned, we could get all that information behind closed doors.

There are two theories, of course. There is one theory, followed by some, that it is a favor to the American people to let them know what their elected officials are doing. I don't follow that theory. I think they have an absolute right to know what is going on.

I think we have an absolute duty to bring all the facts in regard to any misconduct on the part of public officials to the attention of the public. If there are Communists handling defense work, the American people should know it. That is the way you get them.

Q—Do you ever get any tips from the FBI? You have said that you do not have access to their files?

A—I neither ask the FBI for information nor do they supply me with information. The only time I ask for information is through the

attorney general. By official letter we occasionally ask for name checks. We occasionally ask that an individual we can't find be located. That is always done through the attorney general; and if he authorizes, we get the information as to the location.

As far as a file is concerned, Roy, up to this time we have never gotten an FBI file, have we?

Cohn—We have never gotten an FBI file and we have never gotten a tip from the FBI.

Q—Have you ever gotten information from the FBI on cases? Have some of your requests been granted by the attorney general? McCarthy—Information as to the location of people whom we couldn't find.

Q—No information as to the activities of those people?

A—No, I can't recall any.

Be thrifty! Use the leftover syrup from canned fruits in gelatin salads, on cereal, in a dessert sauce or for basting ham.

News Analyst

WASHINGTON (AP) — The United States may have to get into the Indochina war to bail out the French who have been put in jeopardy by the Communist-led Vietminh.

Over the years this country has spent more than a billion dollars trying to bail out the French with military equipment. Why, with all this help, aren't they winning?

The Russians and Red Chinese have been helping the Vietminh. But members of Congress, natives of Indochina, and American reporters there all give this as the main reason for French failure:

The colonial-minded French do not have the wholehearted support of the Indochinese. Millions of them for years have been demanding complete independence. This the French haven't given them. If France guaranteed it by a certain date, they'd have a stake in wanting to see the French win.

Eight million of the Indochinese are now in Vietminh-occupied territory, about 18 million in the French area.

But millions behind the French lines are either anti-French or pro-Communist. Ho Chi Minh, leader of the Vietminh, is a lifelong Communist. He is also a nationalist. He's fought for independence all his life. The Vietminh isn't all Communist. It has the support of some nationalists who want freedom from the French.

The French do not have the support of other Asian people, who look upon the war as an attempt by the French and the West to perpetuate, not end, hated colonialism.

This crisis comes at a time when the United States had to stand by and see communism take over China and is anxious that no more of Asia falls into Red hands.

The French are sick of the war. They couldn't, or wouldn't, continue it without the equipment this country has given them. They may reach a point soon where they won't want to continue unless this country takes active part.

If the French withdrew altogether, leaving Indochina to Ho Chi Minh, the whole country would soon be Communist. Next step for communism would be taking over the rest of Southeast Asia.

If the French made a negotiated peace leaving Ho Chi Minh in control of part of Indochina, and then withdrew, this no doubt would happen:

Ho Chi Minh would soon have all Indochina.

Secretary of State Dulles has talked of "united action" among the non-Communist nations to assure a French victory. But he talked, it turns out now, before he had the united action. He's shopping around now, trying to get it.

In a speech this week in the Senate, applauded by Democrats and Republicans alike, Sen. Kennedy (D-Mass.) said:

"Without political independence for the Associated States, the other Asiatic nations have made it clear that they regard this as a war of

## TODAY'S GARDEN-GRAPH

Reg. U. S. Patent Office

COOKED AND EATEN  
POD AND ALL

EXTRA-THICK  
TENDER WALL

### Edible - Pod Sugar Peas

By DEAN HALLIDAY  
Distributed by Central Press Association

THE edible-podded or sugar pea is an entirely different type of pea, which can be cooked and eaten pod and all. The peas look like beans, as shown in the accompanying Garden-Graph, but taste like peas.

The pods measure some 4½ inches in length, but are broad, indented and contain about seven peas. Should the pods develop too fast to be tender when cooked, the peas can be shelled and eaten. Normally, the pods are stringless and without fiber. The wall of the pod is extra thick, as illustrated.

Another advantage of devoting garden space to sugar peas is that the bean beetle leaves them strictly alone.

There are a number of varieties of the sugar pea, some dwarf and some the so-called mammoth. The latter are taller growing and require some support on brush, wire or strings.

Dwarf Gray Sugar is the earliest variety. It is wilt resistant. The vines grow about two feet high and produce an abundance of pods. The pods are three inches long and pale green in color. The seeds of this variety are small and a mottled gray.

Another small variety is Dwarf White Sugar, whose curved pods are tightly filled with peas.

Two of the taller growing varieties are Mammoth Melting Sugar and Mammoth Luscious Sugar. The vines of these varieties grow five feet high. The pods contain 7 to 8 peas.

Sugarstick is a newer variety which is very productive as well as outstanding in flavor. Its siliced raw pods make a splendid addition to mixed salads.

## Atlanta

Mr. and Mrs. Howard Duval of Chillicothe spent Sunday with Mr. and Mrs. Amos Duval and son, Charles.

Miss Effie Rose Hobbie returned to Miami University at Oxford, after spending the Spring vacation with her parents, Mr. and Mrs. Warren Hobbie.

Mr. and Mrs. James Willis visited Sunday afternoon with Mr. and Mrs. Harley Hiser and family of Clarksburg.

## Pennsy Railroad Settles Suits

CLEVELAND (AP) — Widows of three men who were killed in a crossing accident settled suits against the Pennsylvania Railroad recently for \$45,000.

Mrs. W. R. Cleckner, whose husband was assistant manager of the Sears, Roebuck & Co. outlet in Canton, got \$14,000. Mrs. Ronnie Hurst, whose husband had been a clerk at that store, got \$9,000.

The widow of Anthony J. Rocco, president of a Cleveland trucking firm who was killed in the same accident, got \$22,000.

The three men were killed at a grade crossing in Louisville in 1950 while they were returning from a hunting trip.

# The Missus Complains Daily Rut Hubby Has Is His Only Concern

By HAL BOYLE

NEW YORK (AP)—The race of man, heading into the 10th year of the atomic era, is like a small child that awakens in a half-light, looks in sleepy doubt out the window and cries:

"Mommy, is the night coming down or the sun coming up? I can't tell."

None of us alive, from a baby in its cradle to wise old Winston Churchill, can say for sure whether the world stands in twilight or at the edge of a great dawn. Nobody knows. Nobody.

The odds are strong that there will be another war, simply because the tribes of mankind have fought more than 1,000 wars in a brief time on earth, because there is a war going on right now, because there never has been a lasting universal peace.

As an incurable optimist, I do not find the prospect of being hit between the eyes by a hydrogen bomb any more terrifying than the possibility of being struck by lightning. The real tragedy behind the use of atomic energy in war would be, not the mass slaughter it could cause, or the death of cities, but that this same power, wisely employed, might bring a happier day for millions. You can't say that of a machinegun. Death is its purpose.

Pessimists fear an atomic war would wipe out mankind. That's not likely, unless some scientist finds a way to set a match to this earth we dream and scheme on and turn it into a minor fireball in the sky. Men lived in caves before, and if the nations start tossing hydrogen bombs around like firecrackers, some men would still crawl out of caves alive when the explosions ceased.

The intricate civilization we live in now, however, could well become a casualty—and set mankind back on its haunches a couple of hundred years, giving us the problem of making the long painful crawl from darkness back to half-light again.

What would you miss most if civilization were destroyed in your own lifetime? What do you really value in it? What would you yearn for most again, if you were suddenly forced back into a half-savage condition, fighting fiercely for food, warmth, shelter and safety?

There are so many things. My wife and I were talking this over the other night, and Frances said:

"Well, at least there's one thing you wouldn't miss—the daily rut you complain about."

The daily rut? I fell to thinking. What was the daily rut?

It was going to work, of course, and the long voyage home on the bus—to a nice meal at the end. It was a pleasant place to live in, and bills, bills, bills. It was income taxes, and teaching the baby a new game. It was the music of Beethoven, and a braying comedian on the radio.

Such a mixed-up rut. It was coughing in a fog, and being flooded by the moon on a summer night. It was worrying why friends sometimes act like half-enemies, enemies like half-

friends, then getting a kind note from a complete stranger. It was a sense of getting older, and the youthful feeling that comes with spring.

Vacationing at the beach, sweating in the subway, buying a new suit, breaking an old shoe-lace, losing yourself at a wonderful new musical, finding yourself at the funeral of someone who couldn't afford to die, being bored at a banquet, window shopping at Christmas time, wine at night, aspirin in the morning, feeling sorry for a dwarf, admiring the Empire State Bldg., working and resting, and always wondering, wondering, wondering.

The daily rut? Suddenly it seemed infinitely precious to me.

—a channel between dead regrets and new opportunities. Why, what is civilization but the collection of all our daily ruts, and the chance to plow fresh ones? Anything that destroyed our civilization would destroy them, the patterns we live by. And that is what the average man would miss most—the daily rut he secretly loves and so often rebels against.

### These Days

(Continued from Page Six)

Fear is the dominant motive in these considerations. A weapon of fear disarms every people because there is always the possibility that some country might use the hydrogen bomb in its own desperation—use it somewhere, if only once, to show what it can do. And the frightening question is—where?

2. The atom bomb, when we thought we had some advantage, before we knew that Dr. Klaus Fuchs and Julius Rosenberg had stolen our advantage, was guarded even from our allies. The atom bomb is outmoded. The hydrogen bomb is no longer a secret. Apparently it is easier to make, less costly, and more readily under-

stood. It seems senseless to keep any knowledge we may have from the British, if we are to hold their good will. They will not stay long with us, if we do not trust them in this matter, and that has been made clear in parliamentary debates.

3. The ideal solution would lie in a complete and irrevocable abandonment by all nations of this most horrible weapon. The problem is to work out a formula which will eliminate deceit and trickery between nations which distrust each other. Perhaps fear will accomplish what logic never could. "Mass retaliation," a slogan if not a plan, is not the solution because it means that we shall all be killed anyhow. While "mass retaliation" may be sound from a military standpoint, it does not allay the fears of the people. With death upon all of mankind, perhaps the rule of self-preservation will indicate a course.

## Kids Visit Mamie

KINSEY'S MEN'S SHOP

# School Notes

**CIRCLEVILLE HIGH**  
What Goes On In General Metals?  
Sparks fly, machines whir, and the ring of the anvil announces to all that something is going on. But what? What is being made? What is being learned?  
Contrary to popular belief, the shop is not just a place to make things. The real value of the course is in the operations like welding, making sand molds, cutting threads, etc. Boys who take shop are often surprised to find it is not an escape from textbooks and lectures. Theory is important and safety is paramount.  
So there is much to learn if one is to know how to use a machine properly and safely. The project is important mostly because it challenges the student's thinking as he designs and builds it.  
Projects are as interesting as they are different. While candlestick cups are turned out on the machine lathe, scrap aluminum is being melted down to be poured into an ash tray casting. Arc and gas welding provide sparks, the milling machine produces chips, the surface grinder sounds like a clarinet off key, and other machines and students, contribute to the hum of the shop—all attesting to the fact that something is being done—something is being made, and most important of all, something new is being learned!

Eighty-four seniors visited Pickaway County Common Pleas Court this week. These pupils, members of Miss Mary Walter's civics classes, are studying Ohio government. These classes found the selection of a jury interesting and hope to observe other court proceedings.

**INSERT STARS**  
Stooge Club, composed of boys in the upper three classes, is celebrating its 20th anniversary this year. Through the years the club's aim has been to promote good, clean athletics, to assist the athletic program financially, and to provide help at football and basketball games.  
Requirements for membership in the club are:  
Interest in boosting athletics and a willingness to work in the projects the group undertakes.

**SCIOTO HIGH**  
The Scioto High Home Economics girls and the FFA boys attended the Home and Farm Week at Ohio State University March 26. The girls attended different sections of the meeting and listened to talks concerning home economics and its advantages. Among the speakers were: Jean Hard, dietitian; Claribel Taylor, teacher; Priscilla Wright, Home Demonstration agent; Charles Hahn, Home Maker.  
They also had the opportunity of

plans for a card party next Saturday night, to be held at the school building.  
Scioto's Mother's Club gave its annual Basketball Banquet and Dance in honor of the senior and junior high ball teams March 26. Speakers of the evening were County Superintendent of Schools George D. McDowell and Superintendent Snyder, with letters being given to ball players and cheerleaders, and special awards given to the seniors, Ben Daves, John Kaiser, Russell Collins, and Donna Mae Haughn, by Coach Walter Willis.

The PTS presented the school a new set of swings and a merry-go-round which have already been installed.  
The Mother's Club has also presented an additional set of swings.

## 16.75

A new blend makes a new short coat story...

There's big news in these Penney short coats! Blended of 93% wool, softened with 7% Orlon, they take on a new lovely misty tone effect, a pebbly surface that adapts itself so beautifully to the newest colors. Fashion-styled, they're extra special proof that Penney quality is your greatest saving. Ice blue, pink, red, aqua, beige, white. 8 to 18.

### everybody loves a sailor! GIRLS' RIPPLE BRIMMED SAILOR

## 2.98

Certain to go to her head and to her heart... a sophisticated fashion with a new treatment! It's a sailor, the ripple brim outlined in contrasting rayon velvet and finished with the daintiest of Spring flowers! Toyo cloth in white, red, natural, navy, pink.

### Frills are in order for a fashion Easter...

## Sheer Beauty Makes a Blouse

## 4.98

Sheer glamour magic, the 15-denier nylon in your Easter blouse from Penney's! Lavish with ruffles and pleats and tucks, they're dreamy additions to any Easter suit; and your sleeve length is your own choice—we have short and 3/4 lengths. White, pastels. 32 to 38.

## Mining Men Shaking Off 'Down' Feeling

### Government's Plans Helping Pep Up Metal Industry In Arizona

Editor's Note: Following is another in a series of articles by Sam Dawson, Associated Press business news analyst, who is touring the nation, feeling its economic pulse.

By SAM DAWSON

TUCSON, Ariz. (AP)—Arizona mining men are shaking off some of that depressed feeling today. Production is down from its peak, but government plans to prop metal prices have somewhat eased their fears that bigger drops were on the way.

And some new copper mines west and north of here will be coming into production with Uncle Sam pledged to take metal at fixed prices that assure profitable and steady production, even if present market prices should drop—as mining men here privately admit is still likely.

Since Arizona produces more than one-third of the copper mined in the nation, a sharp cutback in output or drop in price would quickly be felt by its economy. So far this year, Arizona's copper output is running nearly 2,000 tons a month below last year's rate.

Government buying for the defense stockpile would help. But copper men here say that a return to former production levels will have to await a turnabout in industrial production or a step up in defense spending, perhaps through some new war scare.

Price advances in lead and zinc on the strength of expected government buying for the military stockpile have allayed fears the state's one remaining mine primarily producing lead and zinc might close. It has kept operating largely because of the gold and silver content of its ore.

Other mines primarily producing lead and zinc have closed, and Arizona output of these metals is now only about one-third that of a year ago.

Mining men say the closed mines will reopen only if the government's stockpiling program—yet to be spelled out—provides an adequate price floor, assures government buying over a fairly long period and guarantees that the gov-

MRS. VIOLET ABERGOLD bids goodbye to her son, Ronald, 14, after the boy was sentenced in Pittsburgh to from six to 12 years in the county workhouse in the death of David Jenkins, father of seven children. Ronald admitted he pushed Jenkins to the street and kicked him in the back of the head. The boy was wearing cleats on his shoes. (International)

ernment won't dump its metal stocks on the market later on.

Some mining men think the market price of lead would have to rise to around 17 cents a pound, a gain of at least 3 cents, before mine owners would start rehiring laid-off miners.

Privately copper men will tell you that they still look for the price to come down—perhaps to cents—if and when Chile returns to the world market with its huge pile of metal.

Copper mine production here has been pared because of signs of an approaching oversupply. So far the cutback has been mostly in costly overtime work. Most copper mines still operate on a five-day week basis. And merchants in the mining towns say that mine pay scales are still high enough to sustain retail trade.

New copper mines will be opening soon. Arizonans count on this to put a sizable prop under the state's economy.

# Spring Sports Championships Play Starts

## Ohio High School Lads Prep For State Titles In Four Main Fields

COLUMBUS, Ohio (P)—Golf balls, baseballs, tennis balls and cinders are flying all over Ohio these days as an estimated 32,602 high school athletes prepare for the four-day spring sports championships.

The state finals in the quadruple contests—golf, tennis, baseball and track-field—are scheduled May 28-29 at Ohio State University. A host of elimination events will weed out all but the best in all sports.

Ten Class B track-field qualifiers, and nine in Class A, are scheduled May 22 to select the elite for the big carnival in Ohio stadium. Baseball runs from April 17 through May 22 on a sectional-district-regional basis, with 21 Class A and 19 Class B tournaments designed to name the four teams in each division which will play for the titles.

Golf has 9 district meets on tap, and tennis 6.

Here's an overall look at the spring program:

**TRACK:** Defending champions, Cleveland John Adams (A), and Clyde (B); 678 schools and 13,560 boys will try to qualify in May 22 Class A district meets at Delaware, Uhrichsville, Cleveland, Salem, Bowling Green, Mansfield, Athens, Dayton and Cincinnati. Class B eliminations the same date are at Delaware, Uhrichsville, Chagrin Falls, Berea, Salem, Bowling Green, Mansfield, Athens, Cincinnati Purcell (A), and Xenia Bearcreek (B); 864 teams and 17,280 boys are in the starting field. The qualifying setup is:

April 27-24: Class B exempted village and parochial qualifiers at Clyde and another undecided northwestern site; May 1 Class A sectionals at Youngstown, Barberton and Canton; May 8 Class A sectionals at Bridgeport, Steubenville, Perrysburg, Toledo, Galion, Lima, Defiance and Willard, and Class B sectionals at Philo, Baltic and Bridgeport; May 15 Class A districts at Columbus, Bridgeport, Akron, Kalida, Athens, Dayton and Cincinnati, Class B districts at Columbus, Bridgeport, Kent, Coldwater, Dunkirk, Clyde, Holgate, Athens, Piqua, Dayton and

# Top Golfers Await Tests In Masters

AUGUSTA, Ga. (P)—The big boys of the 20th anniversary Masters Golf Tournament shoved their hot practice rounds into the back-ground today and settled down to the deadly serious business of playing under pressure.

With a field of brilliant golfers such as the Masters draws, the pressure is terrific. Sensationally low practice rounds don't mean a thing when they start playing for keeps. Take it from Ed (Porky) Oliver, the Lemont, Ill., veteran who was runner-up to Ben Hogan in the 1953 Masters. Porky fired a 34-30-64 in practice yesterday, matching the competitive record for the Augusta National course. It was the lowest tuneup round turned in, but Porky wasn't exactly overjoyed about it.

"I don't like these kind," he said. "They don't count."

He may have remembered last year, when Lloyd Mangrum fired a practice 63 and took a 74 in the opening round.

Low scoring in the warmups may have prompted Hogan's prediction that his record 274 of last year will be broken.

With a record 79 players entered, 78 of the field were pondering pretty much the same question: "Is it possible to beat that little guy Hogan?"

Cincinnati: May 22 Regional Class A tournaments at Bridgeport (2 teams from northeast, 1 east, 1 southeast), Cleveland (4 from northeast), Kalida (3 from northwest, 1 from central), and Cincinnati (4 from southwest); Class B regionals at Columbus (2 central, 1 east, 1 southeast), Kent (4 northeast), Kalida (4 northwest), and Dayton (4 southwest).

**GOLF:** Defending team champion, Columbus Aquinas; medalist, Bob Shave, Willoughby; 164 schools and 984 boys (not divided into classes) have May 22 qualifiers scheduled at Columbus, St. Clairsville, Cleveland, Ravenna, Lima, Toledo, Athens, Dayton and Cincinnati.

**TENNIS:** Defending champions Barry McKay of Dayton Oakwood, singles, and Jack Baron and Dick Garcia, Fremont Ross, doubles; 96 schools and 768 boys have May 22 qualifiers scheduled at Cleveland, Akron, Bowling Green, Athens, Dayton and Cincinnati. The Athens meet is a joint qualifier for eastern, southeastern and central district players.

# Sport Briefs

**By The Associated Press**  
Light-heavyweight champion Archie Moore turned up with an ankle sprain yesterday and his fight with Jimmy Slade, scheduled to be nationally televised next week, was ordered postponed.

Some 160 high school and college coaches will attend Wooster College's fourth annual football clinic Saturday.

Baltimore hotel operators have refused to lift their restrictions against Negro guests, including members of the Baltimore Orioles baseball club and members of visiting teams.

New Yorkers Jimmy Herring and Cal Davis meet in Akron Armory tonight in a 10-round middleweight bout. The fight program calls for a total of 48 rounds of boxing.

Coach Jim Tatum of Maryland will be in charge of the college all-stars in their game against the Detroit Lions, National Football League champions. The game will be played at Soldier Field on the night of Aug. 13.

A flood of football hopefuls—about 850 in all—is starting to roll out on Big Ten practice fields for the opening of spring drills. Purdue, Indiana, Illinois, Ohio State and Wisconsin already have opened practice. Michigan, Michigan State and Northwestern will start Monday. Minnesota opens April 19 and Iowa starts April 20.

# Scioto Completes Baseball Schedule

Scioto High School has completed its baseball schedule for spring. Teams yet to be played include: April 9 at Jackson; April 13 at Ashville April 14 Jackson at home; April 19 Pickaway at home; April 20 at Walnut and April 22 Ashville at home.

The starting lineup is: Pitcher, Delbert Neff; catcher, Dick Little; first base, Charles Kerschner; second base, John Prushing; third base, Ray Beavers; shortstop, John Kaiser; left field, Rus Collins; center field, Pete Martin; right field, Gail Duval.

# Woman To 'Start' As Redleg Pitcher

CINCINNATI (P)—Everyone in baseball knows the Cincinnati Redlegs have been searching high and low for some winning pitchers but they probably never thought it would come to this—a woman to pitch the first ball on opening day.

Ordinarily, Cincinnati's mayor handles that chore but Mayor Edward Waldvogel is ill and can't do it so Gabe Paul, general manager of the Redlegs, invited the vicemayor to be the first ball hurler.

The vice mayor is Mrs. Dorothy Dolbey, who will join the Redleg pitching staff when the team opens its season against Milwaukee here Tuesday.

# Cincinnati Back On Ohio Ground

PORTSMOUTH (P)—The Cincinnati Redlegs felt today as if they were only the length of a long fly from home but they still won't make it back to their own Crosley Field until Saturday.

A game with the Detroit Tigers here today and one with the same club in Columbus tomorrow will intervene before the Reds check in at home for the '54 season.

Their scheduled game with Chattanooga of the Southern Association at Knoxville was canceled yesterday because of wet grounds.

# Record Field Seen Assured For Derby

NEW YORK (P)—Unless some horse shows more than expected within the next three weeks, the field for the 80th running of the Kentucky Derby on May 1 at Churchill Downs could well be a record one.

Withdrawal yesterday of Mrs. M. E. Person's Porterhouse, the 1953 two-year-old champion, marked the second highly regarded eligible to be sidelined in recent weeks and started trainers and owners reevaluating their Derby candidates.

Robert S. Lytle's Correlation Florida Derby winner, and A. J. Crevolin's Determiner, victor in the Santa Anita Derby, stand alone now at the top of the future book. That could well be altered by C. V. Whitney's Fisherman in Saturday's Experimental Handicap at Jamaica.

Porterhouse's withdrawal because of stone bruises in both front feet was announced from Los Angeles last night by Mrs. Person. When Turn-To came up with a bowed tendon a couple of weeks ago, owners of other Derby hopefuls took courage and now that Porterhouse will not be among the starters, they are thinking more seriously about going after a share of the \$100,000 added purse.

Meanwhile, that unnamed better who wagered on Turn-To and Porterhouse in the Kentucky Derby future book was out \$24,000.

The unidentified better March 18 wagered \$4,000 to win, \$4,000 to place and \$4,000 to show on each colt with the Caliente, Mexico, future book.

The better lost \$12,000 when Turn-To was declared out several weeks ago and the other \$12,000 yesterday when Porterhouse was withdrawn. In the future book betting the horse must be a starter to make a ticket valid.

# Davey Itching For Title Shot

OAKLAND, Calif. (P)—Classy Chuck Davey, a college-educated ring cutie from Lansing, Mich., considered himself back in the welterweight title contest today following his thumping 10-round decision over Gerald Dreyer of Pretoria, South Africa, here last night.

The Michigan State graduate gave the former British Empire welterweight champion a thorough beating. He had Dreyer groggy several times in a fast action, nationally televised fight.

Davey, a southpaw, won the unanimous decision of two judges and the referee.

# If Bevo Quits, So Will Newt

RIO GRANDE (P)—Unhappy about his \$3,500 a year salary, Rio Grande College basketball Coach Newt Oliver said yesterday he would leave the little school if his protegee, scoring ace Bevo Francis, drops out.

"Bevo and I feel we don't owe anyone at Rio Grande anything. We came together and we'll leave together," Oliver said.

Francis, a sophomore, said recently he might have to leave after this semester because bills were piling up. Oliver said the rest of the team probably would leave, too, if he and Bevo quit.

- Set firmly

# Luke Easter Due To Start For Indians

BIRMINGHAM, Ala. (P)—Big Luke Easter, once discarded because of his age and miseries, will be back on first base for Cleveland next Tuesday when the Tribe opens its season in Chicago.

Luke, listed as 32, but probably older, got back into the lineup Sunday during an India slump and started a batting rally which produced three exhibition victories over the New York Giants.

There were no signs of the broken foot which kept him out of a large part of last season as he collected four singles in five chances yesterday while leading the Tribe to a 10-5 win in New Orleans.

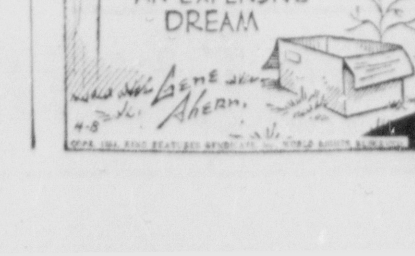

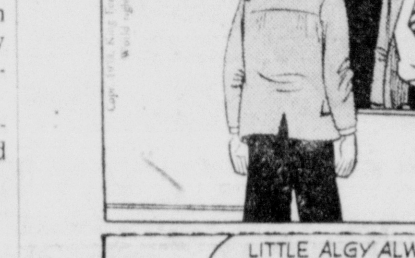

Catching base-hit fever just from hearing his bat, the Indians got 14 other blows as they won their seventh game in 18 starts against the Giants.

Rudy Regalado, given a major league contract just before the game, celebrated with three singles in six chances while Al Rosen and Sam Dente contributed home runs. Regalado, tucking the new contract into his pocket, noted he had been "praying every night for this to happen" and added:

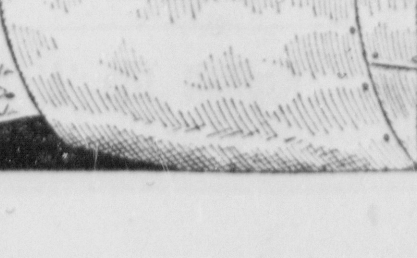

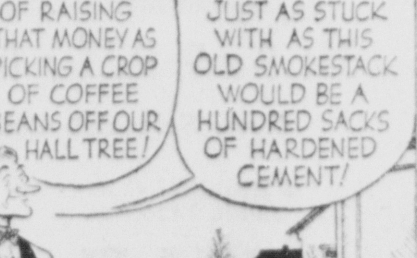

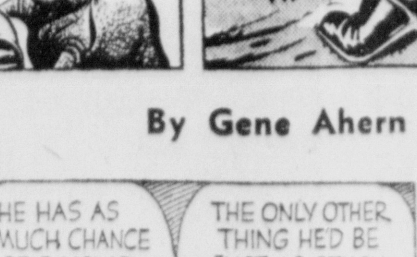

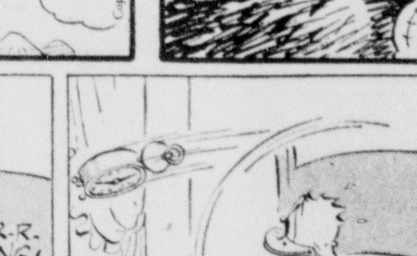

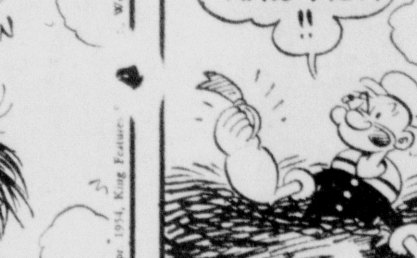

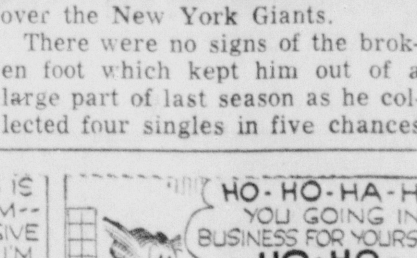

"Now, that I've made the squad, I won't be completely content until I prove I can play regularly."

General Manager Hank Greenberg said the Indians bought Rudy's contract from their farm team at Indianapolis because his batting in training "earned" him a chance to show what he could do in the majors.

House and  
Garden

Matching Chair only \$89.50

You saw it in House and Garden! It's Kenmar's very latest sofa, featuring the delightful new "square-tuft" back. Notice how this smart new fashion feature adds just the right note of casualness — plus a promise of luxurious comfort! Come, see — you'll agree it's today's "smartest" buy — in Style, Service, Price! Available in the newest fabrics.

Yes, Griffith's are going into the furniture business.

We are going into furniture with the same enthusiasm we have put into building up our carpet and linoleum business until we are considered one of the best small town specialty stores in Ohio.

Furniture is a large, complicated field and we are determined that the best policy would be to follow the fashion magazines, so that we would have high styled, nationally known and accepted lines priced correctly and featuring the best craftsmanship obtainable.

We assure you that you will find here the latest styles, top qualities, and lowest prices that are possible.

You will find on our floors now a truck load of the best living room sofas, chairs and sectionals in a large selection of fabrics and cushioning.

As quickly as possible we will continue to add to our stock until you will be able to find all of your furniture needs taken care of here.

We invite you to visit us this week end. We will be open Thursday night, Friday night and Saturday night, for our floor covering sale and to show you this fine new furniture.
